

THE PROGRAM!

The iLawn Bowl program is designed to introduce the Sport of Lawn Bowling to elementary, high school children and kids with disabilities by bringing the Bowls & Equipment to the school gyms where we reach children that would otherwise not have access to see what the sport of lawn bowling has to offer and what its is all about.

WHAT WE DO!

We bring everything to the schools and the students. No field trip or school buses required! Lawn Bowling is a low impact sport that can be enjoyed by everyone for a lifetime. It is a fantastic physical activity that can be enjoyed by all ages and abilities. It also promotes sportsmanship, teamwork and is an inexpensive Sport that isn't really known to many people. We intend to change this with this program.

The iLawn Bowl program visits local schools as we take over a gym class or classes for various drills and team-building activities that we use to introduce students to the sport of Lawn Bowling. It is a highly interactive program with the emphasis on fun! We are teaching the sport of Lawn Bowling through different methods of skills and activities. It's a different approach to learning the sport of Bowls.

"I enjoyed getting my students involved in this life long physical activity. It is a sport for all ages and skill levels"

THE SPORT OF LAWN BOWLS

Bowls is a strategic, challenging and fun sport that can be enjoyed by anyone. It is played on a large smooth grass surface called a "green". Lawn bowls are large, hard resin balls with a bias to them, so that they travel along an elliptical path, rather than going straight. The object of the game is to roll your bowls closer to the target than your opponents. The target is a small white ball called a "jack". The jack is rolled the length of the green to start each end. Players from each team taking turns rolling their bowls down the green toward the jack until all the bowls have been played.

BENEFITS OF LAWN BOWLING

A big part of this is Community Involvement, sharing something that has been in the community for years and it's a shame that people don't utilize the Sport for more things. With this program we know that people will be educated on the Sport of Lawn Bowling. Maybe they won't join a club or become Champions right away, but what it will do is educate people on something they had no idea about. If we can share now and help people understand what the Sport has to offer, then down the road the words and Sport of Lawn Bowling won't be so foreign.

Bringing a new sport into the schools that is low impact and anyone can play. Not many people have played or know what Lawn Bowls is all about, so everyone starts on the same stage making this an easy activity for anyone who tries out the Sport.

- Health and Fitness
- Learning a new activity
- Applying information and using it
- Teamwork

- ✓ stay fit
- ✓ have fun
- ✓ work together!
